

Sample Plans For Homeschooling K-4th Grade Based on Learning Needs

STUDENT PROFILE	MATH	LANGUAGE ARTS	SCIENCE & HISTORY	FOREIGN LANGUAGE	OTHER
<p>For gifted students: <i>Students who are ahead or gifted don't always need to be pushed farther and farther ahead. They often need the right sort of creative challenges or even to be left alone to find their own challenges.</i></p>	<p>A conceptually strong math program with interesting games, books, and projects to challenge your student.</p>	<p>Phonics, spelling, and grammar that suit your student, exposure to books of all kinds to be read aloud and at your student's reading level.</p>	<p>Resources for social studies, science, health, and the arts that suit your needs and philosophy.</p>	<p>An intro class at the right challenge level.</p>	<p>Games, projects, and routines that challenge your student in playful ways. Built in time in your schedule for nature studies, play, and social time. Extracurriculars that are inspired by your student's specific needs and interests, such as sports, scouts, and other groups, including time to try new things.</p>
<p>For students who love big projects: <i>Some elementary students want everything to be messy and crafty. Try to dive in and indulge these kids and let them learn through doing.</i></p>	<p>A conceptually strong math program with interesting games, books, and projects to challenge your student.</p>	<p>Phonics, spelling, and grammar that suit your student, exposure to books of all kinds to be read aloud and at your student's reading level.</p>	<p>Interest-led explorations in social studies, science, arts, and engineering. Resources should ideally include experiments, crafts, and other hands-on learning materials.</p>	<p>Projects that might help them learn the vocabulary of a new language.</p>	<p>Games, projects, and routines that challenge your student in playful ways. Built in time in your schedule for nature studies, play, and social time. Extracurriculars that are inspired by your student's specific needs and interests, such as sports, scouts, and other groups, including time to try new things.</p>

<p>For students who need time to deschool or who need extra support: <i>Students don't need too much pushing at this stage. Having a less stressful year can help them heal and tackle challenges in the future.</i></p>	<p>A conceptually strong math program with built in practice and manipulatives, as well as interesting games and books to inspire learning.</p>	<p>Phonics, spelling, and grammar that suit your student, exposure to books of all kinds to be read aloud and at your student's reading level.</p>	<p>Interest-led explorations in social studies, science, arts, and engineering. Keep it very loosely scheduled.</p>		<p>Built in time in your schedule for nature studies, play, and social time Extracurriculars that are inspired by your student's specific needs and interests, such as sports, scouts, and other groups, including time to try new things.</p>
<p>For students who just want school to be finished: <i>Choose programs with simple, scripted practice or workbooks, and without too many projects, which these kids may see as busywork.</i></p>	<p>A conceptually solid math program with the right amount of challenge and practice for your student.</p>	<p>Phonics, spelling, and grammar that suit your student, exposure to books of all kinds to be read aloud and at your student's reading level.</p>	<p>Simple, routine-based resources for social studies, science, health, and the arts.</p>		<p>Tons of built in time in your schedule for nature studies, play, and social time Extracurriculars that are inspired by your student's specific needs and interests, such as sports, scouts, and other groups, including time to try new things.</p>

<p>NOTE</p>	<p>No two students are the same. Many students need a mixture of plans or even something else altogether. These are just potential starting points. Need help fleshing out your homeschool plan? Simplify can help! We do so much more than just suggest a list of curriculum or textbooks. We can help you turn this outline into a dynamic and inspiring academic year for your student.</p>
